**Global Initiative of Academic Network (GIAN) Workshop**  
**Indian Economy and Society**  
**October 10 (Monday) to October 16 (Friday) 2022 (7 days)**  
**Organized by**  
Nalin Bharti  
Department of Humanities and Social Sciences  
Indian Institute of Technology Patna, Bihta, Bihar, India  

The Humanities and Social Sciences Department incessantly tries to provide a humane perspective to the various technical branches at IIT Patna. It strives consistently to excel in its efforts day by day. Innovative and pertinent research is one such tool through which excellence can be aspired. The department envisions establishing itself as one of the best research platforms to young minds who have the undying thirst for knowledge. Past and ongoing researches in Economics, English language and literature, Linguistics, Management, Psychology, Public Health and Sociology not only try to answer useful inquiries but also try to use learning and imaginative actions as powerful tools to add to the enrichment and progress of human society. The
uniqueness of the department will be realized by its successful and innovative researches along with the various interdisciplinary and multi-disciplinary collaborations both within and beyond the institute.

IIT Patna is an institute of National importance by an Act of the Indian Parliament in 2008. It is ranked 141 among BRICS nations by the Qs World University Rankings of 2021. It is ranked 21 among engineering colleges in India by the NIRF 2021.

Indian Economy has gone through a massive change. India was one of the major economies in past and once upon a time a big contributor to the global economy. Before independence, Indian economy was exploited by many and since independence Indian economy tried to overcome from underdevelopment to development and planning. The global integration offered India an unique opportunity for transformation and the Indian economy was considered as a new economy soon. But the journey of Indian economy from past to present cannot be understood without understanding the Indian Society.

Indian society has a rich cultural past. It is imperative to realize some of the past social challenges with current global integration. Continuity with change is added with new challenges in India. Its rich historical standpoint and an insightful understanding of how India has advanced into a major economic power set values of learning and analytical consistency that will be hard to beat. Connecting economy and society is gradually considered as indispensable for addressing policy tasks by the current segment of global integration. It is indeed valuable not just for those who wish to understand India, but also for those interested in understanding global developments.

Objectives of the Course

The primary objectives of the course are as follows:

a) To offer a broad overview of key economic aggregates and trends for the last two millennia.

b) Further this course provides a comprehensive overview of the governance structure in India.

c) Provides the important aspects of Indian economic policy making.

d) An excellent discussion of how the policymakers have tried to grapple (since gaining independence from the British in 1947) with many problems, the model of economic development they chose to adopt, and the successes and failures of their economic policies.

e) Presents an insightful discussion of the various aspect of (contribution and challenges) to agricultural, industrial, and services sectors of the Indian economy.

f) Presents discussions of India's recent efforts to integrate with the rest of the world and rectify past mistakes.

g) Discussed is the regional inequalities in India and the measures the government is taking to correct them.

h) Offering discussion of the immediate need for considerable improvement in nutrition, health, education, and job opportunities for women in India.
