

The Faculty

Professor Rajesh Dhakal is a faculty of structural and earthquake engineering at the University of Canterbury in New Zealand. His research interests include seismic performance of reinforced concrete (RC) structures, non-structural elements, and seismic loss estimation.

Professor T. K. Datta is the Emeritus Professor of structural engineering at the Indian Institute of Technology (IIT) Delhi. His research interests include structural dynamics, seismic risk and response analysis of structures, and structural control.

Dr. Mangesh Joshi is the Managing Director and Chief Executive Officer of the Sanrachana Structural Strengthening Pvt. Ltd., Thane, India. His professional expertise includes structural retrofitting and strengthening using advanced materials.

Dr. Vasant Matsagar is an Associate Professor of structural engineering at the Indian Institute of Technology (IIT) Delhi. His research interests include multi-hazard protection of structures, earthquake, wind, blast, and fire engineering, fibre reinforced polymer (FRP) composites, and bridge engineering.
